EXECUTIVE PROFILE

Operator who helps businesses grow revenue and cut costs by building AI-powered systems that streamline processes and eliminate bottlenecks across marketing, appointment setting, sales, and operations — and trains the people who use them, so adoption is part of the deliverable. Fifteen-plus years across media, marketing, and operations (since 2008); the process and systems work came first, and AI is the current layer on that foundation. Early conversational-AI practitioner: prompt-engineered a voice AI platform for customer qualification and booking before the category went mainstream. Builds by directing AI tools (Claude Code, GPT/Codex), delivering discovery, build, documentation, and training as one engagement. Has led a W-2 marketing team and a nationwide contractor network.
