EXECUTIVE PROFILE

Lifecycle and CRM operator who builds the journeys that turn a lead into a booked appointment, a customer, and a referral. Owned the complete GoHighLevel lifecycle program for multi-brand home-service businesses: acquisition, qualification, booking, nurture, retention, re-engagement, and referral, end to end. Fifteen-plus years across media, marketing, and operations (since 2008); eight of them running marketing and CRM systems at the 365 brands, with AI as the current layer on that operator foundation. Channels run honestly and well: email, SMS, and on-page. Builds systems by directing AI tools (Claude Code, GPT/Codex); has led a W-2 marketing team and a nationwide contractor network.

PROOF — THE FULL-LIFECYCLE CRM PROGRAM

Full-Lifecycle CRM Program — 365 Custom Courts / Custom Turf / Rubber Surfacing (GoHighLevel)

Ad opt-in → CRM → instant confirmation SMS → setter qualification call → sales appointment. Reminders one day and one hour before. Post-appointment QA check-in. Automated email/SMS quote follow-up nurture — salesmen don't follow up, so the system does. Newsletter-style re-engagement for ghosted leads, where any reply re-notifies the setter/rep. Post-purchase thank-you, install scheduling with day-before/hour-before reminders, post-install warranty and maintenance communications, review requests, and a referral program. Warranty service flow: online form → assessment visit → qualification → service appointment. Testing: A/B testing ran mostly ad-side; lifecycle tests focused on phrasing, tone, and GIFs to revive ghosted leads.

01 Multi-Channel Recruiting System — The Bauer Group

Organic lifecycle-style operations across email, Facebook, Instagram, and LinkedIn: targeting screens, contact rules, booking verification, and pre-call briefs.

02 AI Intake & Qualification System — Artificial Turf Maintenance

Conversational AI chatbot that starts the moment a lead arrives: qualifies the customer, collects information and photos, and delivers them quote-ready.

03 Source-Grounded AI Mentor — The Bauer Group

Persistent AI mentor that answers from verified sources with citations and routes exceptions to the broker for a human decision.

04 Visual Quote Systems — Agency Logics

Photo-to-rendering turf visualizer and 3D pergola configurator that turn a customer idea into a visual concept and rough estimate, plus pool, HVAC, and kitchen demo tools.
