Frisco, TX | (469) 213-0162 | HwrdKan@gmail.com | linkedin.com/in/howardkan
Remote or Dallas–Fort Worth

OPERATING ARCHITECTURE

AI	Assistants, agentic workflows, voice AI, conversational AI, source-grounded support
REV	CRM, lifecycle journeys, qualification, booking, follow-up, reporting
BUILD	Portals, visualizers, configurators, quote tools, web applications
ENABLE	Training, SOPs, adoption, escalation paths

PROFILE

Operator who helps businesses grow revenue and cut costs by building AI-powered systems that streamline processes and eliminate bottlenecks across marketing, appointment setting, sales, and operations.

Fifteen-plus years across media, marketing, and operations (since 2008). The career arc runs in one direction: content creator (director, videographer, editor) → manager recruiting, hiring, training, and managing a nationwide network of photographers and videographers → eight years of marketing, operations, and systems work at the 365 brands → AI systems as the current layer. The process and systems work came first; AI is the newest tool on an operator foundation, not a recent pivot.

Has managed a W-2 marketing team (videographers, a graphic designer, a social media administrator, a digital advertising specialist — his direct reports) and a nationwide contractor network. Everything he ships is built by directing AI tools (Claude Code, GPT/Codex) — discovery, build, documentation, and training delivered as one engagement, with adoption built into the deliverable.

SELECTED SYSTEMS AND PROGRAMS

Agent Training Portal — The Bauer Group
Login-based portal with lessons, slide decks, an SOP library, and everyday agent resources in one place.

Source-Grounded AI Mentor — The Bauer Group
Persistent AI mentor that answers from verified sources with citations and routes exceptions to the broker for a human decision.

Multi-Channel Organic Recruiting System — The Bauer Group
Organic recruiting operations across email, Facebook, Instagram, and LinkedIn, with targeting screens, contact rules, booking verification, and pre-call briefs. This system is the standing proof of his organic lead generation work.

Partner Resource Hub, Project Tracker, and Social Content Apps — The Bauer Group
A Preferred Partners resource hub; a project tracker; a social media management app (approval gallery, notes, updates); and a post-generation app — upload a photo, pick a post type, the post is generated and scheduled.

Full-Lifecycle CRM Program — 365 Custom Courts / Custom Turf / Rubber Surfacing
The complete GoHighLevel lifecycle journey, built and run end to end (full detail under Experience below): acquisition, qualification, booking, nurture, retention, re-engagement, review, and referral.

Visual Quote Systems — Agency Logics
Photo-to-rendering turf visualizer and a 3D pergola configurator that turn a customer idea into a visual concept and rough estimate, plus pool, HVAC, and kitchen demo tools for dealer and distributor businesses.

AI Intake & Qualification System — Artificial Turf Maintenance
Conversational AI chatbot that starts the moment a lead arrives: qualifies the customer, collects needed information and photos, and delivers them quote-ready — automating the intake half of an overwhelmed owner-operator's job. Full case under Client Engagements below.

SEO / AEO / GEO Program — EverBlade Turf and Designs
Full search and answer-engine program: end-to-end site optimization, a built-out article program, and listings and backlinks across Google Business, Yelp, Houzz, Angi, Apple, and Bing. Full case under Client Engagements below.

EXPERIENCE

AI Systems & Agent Growth Consultant | The Bauer Group (real estate brokerage, Frisco, TX) | 2026–Present

- Built the agent training portal: lessons, slide decks, SOP library, and everyday agent resources in one login-based home

- Built the source-grounded AI mentor: answers from verified sources with citations, routes exceptions to the broker for a human decision
- Built and runs the multi-channel organic recruiting system across email, Facebook, Instagram, and LinkedIn — targeting screens, contact rules, booking verification, and pre-call briefs
- Built the partner resource hub (Preferred Partners), a project tracker, a social media management app (approval gallery, notes, updates), and a post-generation app (upload a photo, pick a post type, post generated and scheduled)
- Trains agents and staff on practical AI use

Chief Operating Officer | Agency Logics LLC | Feb 2026–Present

- Leads client operations and delivery for home-service dealer and distributor businesses
- Built AI, CRM, web, and quote systems for clients, including a photo-to-rendering turf visualizer and a 3D pergola configurator (visual concept plus rough estimate), and pool, HVAC, and kitchen demo tools
- Built conversational AI (SMS and voice) for lead qualification and appointment booking
- SEO, AEO, and GEO work across client web properties

Digital Media & Marketing Manager | 365 Custom Courts / Custom Turf / Rubber Surfacing | 2022–Present

- Multi-brand marketing and creative operations across the 365 brands
- Owned the full lifecycle and CRM program in GoHighLevel, from lead capture through post-install retention and referrals (full program detail below)
- Paid social strategy and ad copy (a supporting line of the role, not a headline strength); SEO WordPress sites; CRM onboarding for new sales hires; monthly sales reporting
- Early conversational-AI work: prompt-engineered an Air AI voice platform that qualified customers and booked appointments into the CRM — implementation experience from before conversational AI was mainstream

The full-lifecycle CRM program (GoHighLevel)

Built and ran the complete customer lifecycle journey:

- **Acquisition and intake:** ad opt-in flows into the CRM; instant confirmation SMS on opt-in
- **Qualification and booking:** setter qualification call; sales appointment booking; reminders one day before and one hour before the appointment
- **Post-appointment:** QA check-in after the appointment
- **Quote follow-up nurture:** automated email and SMS follow-up on open quotes — salesmen don't follow up, so the system does
- **Re-engagement:** newsletter-style campaigns for ghosted leads; any reply re-notifies the setter or rep so a human picks the conversation back up
- **Post-purchase:** thank-you communications; install scheduling with day-before and hour-before reminders
- **Post-install:** warranty and maintenance communications; review requests; referral program
- **Warranty service flow:** online form → assessment visit → qualification → service appointment
- **Testing:** A/B testing was mostly ad-side; lifecycle tests focused on phrasing, tone, and GIFs to revive ghosted leads
- **Channels, stated exactly:** email yes, SMS yes, on-page yes (website forms into the CRM, plus AI-driven SEO/AEO/GEO). Push notifications no, in-app no — he has never worked in proprietary apps and does not claim those channels
- **Platform:** GoHighLevel is his CRM. He has no Salesforce and no Braze experience and does not claim either

Digital Media & Marketing Manager | Healthy Home 365 / Eco Probiotic Systems | 2018–Present

- Managed a W-2 marketing team — videographers, a graphic designer, a social media administrator, and a digital advertising specialist — his direct reports, across media, design, social, and advertising
- Websites and ecommerce; dealer support; customer-service operations
- Marketing support for affiliated startups in construction, real estate, solar, and insurance

Director / Content Creator Network Manager | Media Distribution Solutions | 2017

- Recruited, hired, trained, and managed a nationwide network of photographers and videographers across the United States — a management role: recruiting, hiring, training, and day-to-day management of the network
- Built the recruiting campaigns and onboarding that scaled the network

Director / Director of Photography / Editor | GOODTV | Taipei | 2014–2016

- Directed commercials, promotional videos, and short films
- Branded content that grew viewership

Videographer / Editor / Social Media Administrator | Dwindle Distribution | 2011–2012

- Shot and edited branded content for action-sports brands

- Managed social media and YouTube channels

Founder | WRD Media | 2008–Present

- Independent media production and consulting company: branded content and end-to-end creative projects across industries
- Home of the client engagements below (Artificial Turf Maintenance, EverBlade Turf and Designs)

CLIENT ENGAGEMENTS

Artificial Turf Maintenance — Conversational AI Intake & Qualification System (2026)

A friend's turf maintenance company — the business is literally named Artificial Turf Maintenance. The owner's wife ran the whole business and was overwhelmed. Howard came in and streamlined the system:

- The moment a lead arrives, a conversational AI chatbot starts the conversation
- The AI qualifies the customer and collects the information and photos needed to quote
- The customer is delivered quote-ready — the company does no on-site consultations except for repair jobs, so intake quality carries the sale
- The build automated the first half of her job: the marketing-side intake, qualification, and information collection
- Built entirely through a conversational AI chatbot, with the knowledge base, prompt engineering, and setup done by Howard
- The owner is a friend who would vouch for Howard — usable as a reference for the consulting work

EverBlade Turf and Designs — Full SEO / AEO / GEO Program

- Built the company's whole SEO, AEO, and GEO program end to end
- Fully optimized the website for SEO, GEO, and AEO
- Built out the article program on the site
- Set up listings and backlinks across Google Business, Yelp, Houzz, Angi, Apple, and Bing
- Named-client proof for the SEO/AEO/GEO skill set (a WRD Media service line)

CONVERSATIONAL AI — DEPTH

Voice. During his 365 brands era, his employer bought Air AI — a voice AI that made calls, qualified customers, booked appointments, and could sell. Howard learned prompt engineering early on that platform, including how voice agents connect to systems and CRMs. GoHighLevel now offers the same capability integrated in-CRM. He is aware the legal and compliance landscape around AI voice calling has tightened since. This is early, pre-mainstream conversational-AI implementation experience, and voice AI remains a skill set he can offer businesses.

Text. He has also built the text versions of conversational AI — SMS agents and website support/chat agents — including creating the knowledge bases behind them, prompt engineering, and full setup. The Artificial Turf Maintenance intake system and the Bauer source-grounded AI mentor are the recent builds on this line.

SKILL ARCHITECTURE

DIRECTION — Executive operations	Portfolio priorities, client discovery, solution architecture, team leadership, capacity and cross-functio decisions; management of W-2 teams and contractor networks
SYSTEMS — AI and revenue operations	Agentic workflows, AI assistants, voice AI and conversational AI, knowledge-base design for AI agent engineering, source-grounded assistants, LLM APIs, MCP integrations, GoHighLevel pipelines, lifecyc automation, lead routing, calendars, reporting
GROWTH — Marketing and lifecycle	Organic lead generation campaigns across Facebook, Instagram, LinkedIn, and email (featured stren and CRM marketing; nurture and retention journeys; email and SMS programs; segmentation; SEO, A local search; content systems. Paid social strategy and ad copy are in his record as a minor line only advertising is not his expertise
PRODUCT — Applications and conversion	Portals, visualizers, 3D configurators, web applications, qualification flows, quote estimators — all built by directing AI tools

TOOLS AND METHODS

Automation: GoHighLevel, CRM architecture, workflow automation, Zapier, Make, webhooks, SMS and voice, calendars, human handoffs

AI Enablement: Claude Code, GPT/Codex, LLM APIs, MCP integrations, agentic systems, voice AI (Air AI), SMS and website chat agents, knowledge-base design for AI agents, source-grounded assistants, staff training and adoption

Product and Growth: WordPress, SEO, AEO, GEO, Google Business, AI image/video generation, Adobe Premiere Pro, Photoshop, Lightroom

EDUCATION

California State University Dominguez Hills
Bachelor of Arts in Digital Media Arts | Television Emphasis | Minor in Digital Graphics | 2012
